SilverHawk Fuel Injection from Precision Airmotive

Whether you want to convert your carbureted O-360, O-320 or O-540 to fuel injection or replace your existing Precision /Bendix fuel injection system. Teledyne Mattituck Services has a deal for you.

We are now offering a complete conversion kit that will convert your O-360, O-320 or O-540 to a Precision Silverhawk equipped fuel injected engine for only \$3099.00 That's right! A complete system including everything necessary to transform your inefficient and non-aerobatic, carbureted engine into a state of the art fuel injected and aerobic capable powerplant. The kit includes every item you will need to convert your engine: high pressure engine driven fuel pump, Silverhawk fuel control, flow divider, nozzles, fittings, hoses, clamps, mounting brackets and the hardware necessary to install these components. All brand new items for the surprisingly low price of \$3099.00 plus tax and freight.

Already have fuel injection but you need to replace or overhaul the primary units? No problem, Teledyne Mattituck Services can offer you a brand new Precision Silverhawk fuel control, flow divider and four fuel nozzles for \$2365.00 plus tax and freight.

Now you can have the efficiency and performance of a brand new Silverhawk experimental fuel injection system for a price not much different than overhauled.
